TURN YOUR COOKWARE INTO SO MUCH MORE!

**Rice Cooker:** Makes cooking rice easier with a temperature sensor that lets you know your rice is ready. Works well for either brown or white rice, making it delicious each time.

**Slow Cooker:** Turn your Rena Ware utensil into a slow cooker. Makes food tender by cooking at a steady low temperature for a longer period of time.

**Timed Cooking:** Watching the clock won’t be necessary! The Multi Cooker will turn on or off automatically at the times you set.

**Hot Plate:** Not only keeps prepared foods warm, but can also be used to cook like a stovetop to boil water, fry eggs, sauté or steam vegetables, prepare fondue, and much more.
Our largest utensil! Prepare big meals all at one time for any special occasion. Excellent for steaming, barbacoa, cooking vegetables like corn on the cob, and for preparing soups such as pozole and sancocho.

Features

- Constructed to provide excellent and even heating.
- Mirror polished outside; satin finish inside.
- Includes convenient Steamer Rack.
- Specially designed reinforced handles securely support the weight of the utensil.

- The heat source used during cooking must be able to support the weight of the Titan.
- The Titan is not for use with the Rena Ware Induction Cooker or any other stovetop, hot plate or burner that is not certified to support its weight.
- Extreme caution should be used when handling the Titan. Filled with water, it will weigh more than 150 lb (68 kg). To prevent injury, the Titan should not be lifted or carried when it is full.
- Due to its size and weight, minor imperfections in the Titan’s finish can occur during manufacturing or shipping. This will not affect the utensil’s performance and is not considered a defect in materials or workmanship.
The heat source is magnetic induction - an electromagnetic field transfers heat directly to the utensil. The cookware heats up, not the cooking surface. The result - utensils heat up faster and your kitchen stays cooler.

In addition, you could get up to 65% energy savings when using the “water-less” cooking method with the Induction Cooker, compared to boiling water on an electric stovetop*.

Convenient and portable!

OUR CUSTOMERS SAY IT BEST!

My mother adores her Rena Ware cooking set. She has had it for more than 30 years. My father bought her the set when they were first married. When my husband saw my mother’s set he could not believe it was over 30 years old and agreed to buy me a set. I would without a doubt recommend it to my friends.

I bought my first Rena Ware cookware set in 1972. After many years, my Rena Ware utensils are the only things that have passed from generation to generation. Whenever I cook in them, many memories come back to me. To us, Rena Ware cookware utensils are part of our family.
